LOS ANGELES, CA -- Plucked from Australia’s blooming Dance scene, producer and multi-instrumentalist, **Johnny Green**, was tapped by **Love F.A.M.E. Records’** architect AND renowned DJ **katXX** to create the single, “**Oneiro**.” Green used his instrumental background to create an ambient EDM trip that radiates sonic soundscapes a la Bon Iver meets Washed Out. The outcome is gorgeous. A reverb-drenched, kaleidoscopic mirage Green weaves for listeners, leaving us afloat at sea, adrift to speculate and let our minds wander.

Spending time stateside has set the stage for Green to collaborate with the best DJs and producers the New York City music scene has to offer. Along with his partnership with katXX and Love F.A.M.E. Records, chance meetings at Brooklyn dive bars such as Gutter gave wings to ***Oneiro: The Remixes***, which

were slated and planned for ahead of the composition of the original single. “I came up with the idea of writing a strong single,” Green recalls. “Something people could vibe on and then pass it out to the various people I know and work well with to remix it.” **Future Days** (Matt Thornley of **LCD Soundsystem**) and **Housing Corp** were personally hand-picked by Green to remix “Oneiro” based on their acute ability to preserve the essence of the ambient track, all while re-imagining the single into a dance track soundscape. This is particularly evident in the DJ work of katXX, who became inspired to remix “Oneiro” into a mind melting house ballad while living on the beaches of Ibiza.

Love F.A.M.E. Records is the brainchild of underground DJ, NYC native, and Oneiro remix collaborator, katXX. Based in Los Angeles and founded in 2013, the label’s mission is to represent Electronica from a female perspective. The acronym “F.A.M.E.” stands for Fashion, Art, Music, Entertainment and represents the ever growing female influence upon the media and art industries. With the 2014 release of the critically acclaimed **WORK! EP**, LOVE F.A.M.E Records has already proven itself as a label on the scene. The track, which was produced by Eric Sharp and enlisted the talents of both katXX and Sir DDS, also featured remixes by Angger Dimas, NT89, and more.
